Curriculum Vitae

Personal Information

- **Full Name:** Lisa Anne Burges

- **Date of Birth:** 27 September 1998

- **Email:** lisa.burges.dev@gmail.com

- **Phone:** +44 7700 654321

- **Address:** 18 Willowbank Close, Manchester, UK

Professional Summary

Motivated front-end developer with 2 years of professional experience in **JavaScript** and modern web technologies. Specialized in building dynamic, responsive applications using **Vue.js** and associated tooling. Experienced in collaborating with cross-functional teams, integrating REST APIs, and delivering polished, user-friendly interfaces. Passionate about creating accessible, maintainable, and performant applications.

Technical Skills

- **Languages:** JavaScript (ES6+), HTML5, CSS3, TypeScript (basic)

- **Frameworks & Libraries:** Vue.js (Vue 2 & Vue 3), Vuex, Vuetify, Pinia, TailwindCSS

- **Tools & Platforms:** Node.js, Webpack, Vite, Git, GitHub, Figma, Jira

- **Databases & APIs:** Firebase, MongoDB (basic), RESTful APIs

- **Other:** Agile/Scrum, Responsive Web Design, Unit Testing (Jest)

Work Experience

Front-End Developer

BrightPixel Digital, Manchester, UK
August 2022 – Present

- Built and maintained client-facing web applications using **Vue 3** and **Vuetify**, ensuring cross-browser compatibility and accessibility compliance.

- Integrated REST APIs into Vue applications, improving data synchronization and user interactivity.

- Collaborated with UX/UI designers to implement **responsive, mobile-first layouts**.

- Refactored legacy Vue 2 codebase to **Vue 3 with Composition API**, improving code maintainability.

- Contributed to Agile ceremonies and provided technical input during sprint planning.

Key Project:

- *FoodieFinder*: A restaurant discovery web app built with **Vue 3** and **TailwindCSS**, integrating **Google Maps API** for location-based search. The app achieved 10,000 active monthly users within 6 months of launch.

Junior Front-End Developer

CloudCrafters Ltd, Salford, UK
July 2021 – July 2022

- Assisted in building small to mid-scale web apps using **Vue.js** and **Vuex** for state management.

- Implemented reusable Vue components to speed up development and maintain design consistency.

- Fixed UI bugs and optimized page load performance, reducing load times by 25%.

- Worked closely with QA teams to ensure high code quality and test coverage.

- Learned and applied Agile methodologies to deliver on-time sprint commitments.

Key Project:

- *TaskMate*: A collaborative task management tool built with **Vue.js** and **Firebase** for real-time data updates. Successfully deployed to several small businesses for internal project tracking.

Education

BSc (Hons) Web Development & Design
Manchester Metropolitan University, UK
2017 – 2020

Certifications

- Vue Mastery: **Vue 3 Essentials Certificate** (2022)

- freeCodeCamp: **JavaScript Algorithms and Data Structures** (2021)

Personal Interests

- Contributing to open-source Vue components.

- Writing tutorials on front-end development for beginner developers.

- Exploring new coffee shops around Manchester.

- Practicing digital illustration.
